

Cheeky Drawing!

Cheeky Drawing & Painting

Ever wanted to paint like Picasso?

Here's the chance to immerse your hen's into a painting workshop like no other. First we'll get you into the artistic mood for the first 30mins by drawing the male form from a small distance and in the second half we get more up close and personal, this is where you can get colourful and creative.

We use non-toxic body paint and take turns in two's to paint the model's top half of his body.

This is a really fun option, the model would be thankful for a shower after if you have one near by!

Then to top off your painting time we take photos of you and the model together, such a fun way to make your Bride-to-be's day extra memorable!
